

WATER PROSPECTS TO START BUILDING

J. M. Gillette to Build Ten-Story Office Building at Fifth and Boulder on Church Building Site.

R. M. McFARLIN TO BUILD

Mayo Brothers Begin Excavation for Their Big Building at Fifth and Boulder.

With the announcement that Tulsa's new water works officials will have their pipe line over, a new building program is being put under way. The most important announcement is that J. M. Gillette will build a 10-story office building at Fifth and Boulder streets on the site now occupied by the old church building. It is believed that the new structure will be the largest in the state according to preliminary plans.

The McFarlin building at Fourth and Main streets will be under course of construction soon and excavation work has already begun on the Mayo Brothers' building at Fifth and Boston. E. C. Johnson is planning a five-story building on the site once occupied by the Ohio building, and reports of a new \$1,000,000 hotel at Fifth and Boston streets cannot be suppressed.

Plans are now being drawn for the new Episcopal church at Thirteenth and Boston streets and this will cost about \$1,000,000. This will be a part of the \$1,000,000 church building program that is ahead of Tulsa.

Plans for numerous other buildings that have been pending are expected now to take definite shape with the announcement of a definite program for an adequate and pure water supply. Much construction work has been done during the past year, the uncertainty of the water supply and the action of the city commissioners in setting the date for the election has had a wholesome effect on building activities. Another gigantic spurt in building is expected when the water bonds are favorably voted on.

LITIGATION PICKS UP, COURT RECORDS SHOW

Filings of new cases in district court the past week were above the average for the last month.离婚 cases having presented petitions of which number 49 were divorce actions. In superior court 16 new cases were filed, among them six petitions for divorce.

The largest number of divorces allowed in one day in many years were granted in inferior court by Judge J. Martin on June 1, when 10 divorces were awarded to 13 plaintiffs. Of the 40 cases set for hearing, many were dismissed for want of prosecution and several refused by the court.

YES, LA MEDA IS A FACE POWDER, BUT OH! SO DIFFERENT

La Meda Cold Creamed Powder Is So Superior to Old Style Dry Powders That It Has Out-classed Them All.

Your first glance at the satin smooth texture of LA MEDA COLD CREAMED POWDER will make you want to hurry right home and try it.

After you have used LA MEDA and found how hungrily the dry skin absorbs the fresh freshness you in turn will be as well as we. See how the powdery yet soft cheeks glow with renewed youth, you will put down your first jar of LA MEDA as a newly found blessing that you will never again be without.

Of course you know that dry powder should never be applied on a dry skin. So you probably use a little cold cream first and then apply powder. But even this procedure is wrong and does not give best results for the reason that the powder simply forms an outer layer just as if you had been in a dust storm.

The cream and the powder in LA MEDA have been blended into ONE. This means that every tiny pore, every little fold of the skin will be filled and given a protective coating that will cling and beautify all day long.

Wind, rain, cold, heat or even perspiration has no terror for a skin protected by LA MEDA COLD CREAMED POWDER.

You can weather all sun conditions and come home looking as fresh and radiant powdered as when you left your dress shop.

And you can get LA MEDA COLD CREAMED POWDER for you or we will send it postpaid upon receipt of six cents a jar. Three times White, Fresh and Pleasant.

Total sample mailed free if you mention the name of your dealer, and send your address on postpaid card just desired.

County Attorney's Stenographer Wins First Court Case

The courts were treated to a novelty Friday afternoon when Miss Edith Hoffman, for the past two years stenographer to the county attorney's office, acted as assistant county attorney and won her case as sole's attorney in the prosecution of Barney Bloom on charges of assault and battery upon the person of his wife Anna Bloom. At the close of the trial before Justice E. C. Major, the court fined Bloom \$10 and costs amounting to a total of \$20.

Admission to the bar is not required of persons for practice in the justiciable courts of Oklahoma, and Mr. Hoffman, with an extensive knowledge of the law gained from close association with the county prosecutor's office, closed her case with the defendant asking the court for leniency.

Back From France.

Lieutenant John H. Hunt, son of Judge W. T. Hunt, who left Denver recently, is visiting his parents in the city after almost two years spent in France with the adjutant general's department. Lieutenant Hunt, who is a graduate of Georgetown law school at Washington, expects to make his home in Tulsa in the future.

Canada Labor's association to be held at Asbury Park, N. J., from June 23 to 29. It is expected that more than 1,000 delegates will be present.

TAKES Y. W. MEMBERSHIPS FOR ITS WOMEN WORKERS

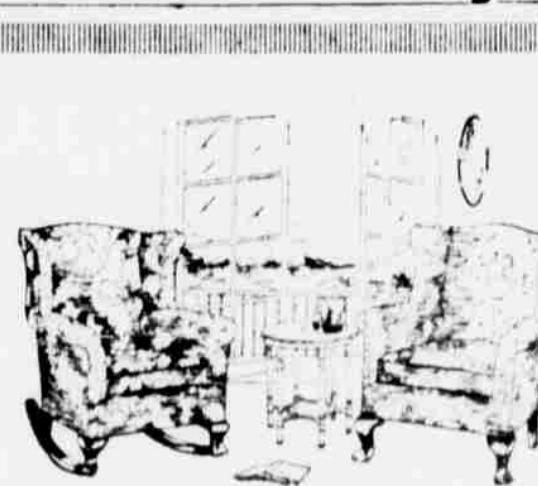

The Central National bank has made arrangements with the Y. W. C. A. for memberships to be given to women employees in keeping with their long standing custom of making a present of Y. W. C. A. membership cards to the men in its employ.

The Y. W. C. A. principle of membership is according to a different plan for this month's induction, the bank having smaller and some of the smaller branches not being included.

According to Miss Nettie Higgins, director of the Y. W. C. A., it is done to induce the women to do more of the domestic work which would otherwise be required of all. Women were inducted first, as women were in charge of housekeeping around the house and take over the other activities where they are idle.

This summer it is expected that the swarming young women will attend at the new building and the Y. W. C. A. will include the continuing meetings in the lecture hall. It is presenting the music.
